No expense has been spared in making Silver one of the ultimate chalets available for rent in the Alps and one of the best-loved chalets in our collection. It was designed by a renowned local architect to the highest standard and furnished with the finest attention to detail.

The alpine design and rustic charm of this much loved chalet provides an incredibly warm and cosy haven in which to indulge and relax. Ideally located just a few minutes walk from the centre of Verbier, guests still have the added luxury of the Ski Verbier Exclusive driving service day and night if needed.

Silver is 250m² and occupies the second floor of the building. A private lift takes guests directly into the chalet, opening onto an impressive open plan living and dining area. Large French windows lead to the south facing balcony with a private hot tub; perfect for an après-ski glass of champagne while watching the sun set over the mountains. There are five stylishly decorated bedrooms, including the master bedroom with access to the wrap-around balcony, and a lovely bunk room sleeping four. In total, Silver comfortably sleeps up to 12 guests. An impressive new 65 inch curve TV with surround sound, Sonos music system and Wi-Fi throughout complete this outstanding chalet.

Room 2: King bedroom with en suite shower room

Room 3: Master super-king with en suite bathroom

Room 4: Super-king/twin bedroom with shared shower room

Room 5: Quad bunk room with shared shower room

"I recently spent 2 weeks with the family at Chalet Silver. We have been coming to Verbier with Ski Verbier for 6 years now. I wanted to take this opportunity to congratulate the Ski Verbier staff that we met for a really superb job. Sophie has been incredibly helpful and responsive. The drivers were all extremely helpful, polite, friendly. I know there will be others behind the scenes that we don't know who also helped make sure things ran so well. In our view they all did a great job and should be thanked & congratulated."

Mr M.B, Chalet Silver
