525 sq.m

No expense has been spared in making these apartments one of the ultimate properties available for rent in the Alps and one of the best-loved combination in our collection. They were designed by a renowned local architect to the highest standard and furnished with the finest attention to detail.

When occupied as one property, Treize Etoiles (5 bedroom penthouse) and Silver (5 bedroom apartment below) combined allow for 10 bedrooms over two floors and a total of 525m<sup>2</sup> to enjoy.

Silver is 250m<sup>2</sup> and occupies the second floor of the building. A private lift takes guests directly into the chalet, opening onto an impressive open plan living and dining area. Large French windows lead to the south facing balcony with a private hot tub; perfect for an après-ski glass of champagne while watching the sun set over the mountains. There are five stylishly decorated bedrooms, including the master bedroom with access to the wrap-around balcony, and a lovely bunk room sleeping four. In total, Silver comfortably sleeps up to 12 guests. An impressive new 65 inch curve TV with surround sound, Sonos music system and Wi-Fi throughout complete this outstanding chalet.

Room 4: (Treize Etoiles) Super-king/twin with shared shower room

Room 5: (Treize Etoiles) Quad bunk room with shared shower room

*"I recently spent 2 weeks with the family at Chalet Silver. We have been coming to Verbier with Ski Verbier for 6 years now. I wanted to take this opportunity to congratulate the Ski Verbier staff that we met for a really superb job. Sophie has been incredibly helpful and responsive. The drivers were all extremely helpful, polite, friendly. I know there will be others behind the scenes that we don't know who also helped make sure things ran so well. In our view they all did a great job and should be thanked & congratulated."*

Mr M.B, Chalet Silver
